Please bring with you:
1) Water bottle (water coolers will be provided to refill bottle)
2) Sun protection (hat, sunglasses, sunscreen, etc.)
3) Swim suit AND towel
4) Seasickness medication (if needed)
5) Snorkel/dive gear (please bring your own if you have it- otherwise snorkel gear will be provided and dive gear/wetsuits may be rented from Divers Paradise)
6) Rain/wind protection (now that it's "winter" it can get a little windy/chilly while out on the water)
7) Diver certification card (if diving)
8) Signed waivers
9) Your Enthusiasm!!!

Safety is always our first concern, so bad weather may require us to cancel the expedition. Typically, if winds are higher than 15 mph, we may need to cancel and reschedule the trip. We will discuss the weather with the staff at Divers Paradise the day before the trip and decide if the conditions allow us to go. If we need to cancel, we will contact you.

In addition, we request that if you are going to actively participate at the coral nursery or during the outplanting of corals that you do not bring an underwater camera with you while diving. We will have an underwater photographer from the RJ Dunlap Conservation Program diving with us to help document the trip and we will share all photos and videos with you!! Thanks!

For additional information about the coral restoration process and some of the tasks we'll be completing during our trip, please visit http://vimeo.com/96625942.

Prices:

Corporate Rescue A Reef Expeditions
We encourage companies to participate in our Corporate Rescue A Reef Expeditions for team building, corporate responsibility education or to just participate in local coral reef restoration. Companies are welcome to tailor the experience to fit their needs including either half-day or full-day expeditions and catering if desired. Prices for Corporate trips will be provided upon request.

For information regarding any of our Rescue A Reef Expeditions, please email Stephanie Schopmeyer at sschopmeyer@rsmas.miami.edu.
